

Day or Night,
Land or Sea...

©2007

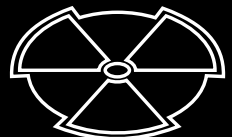

Superluminova glows with intense brightness, but fades after a few hours. Tritium glows for years, but can be difficult to see in mixed light or right after entering the dark. New Never Dark™ combines the two for illumination that works in all conditions.

Trident - with Never Dark™

- Patent-pending dual illumination with Superluminova & Tritium for perfect visibility in all lighting.
- 10-year high-energy power source
- 200M/660 Ft. depth tested
- 316L stainless or titanium models
- 2-year unconditional warranty
