

We focus on the details...

- 1) Cases and metal bands are forged from solid marine grade type 316L stainless steel and hand finished.
- 2) Bands attach to case with a solid stainless screwbar providing over 5X the strength of other watches.
- 3) Screw-down crown with triple seals is depth tested to 100M - with the crown *unscrewed*.
- 4) Dials and hands feature Swiss Superluminova for extremely bright and long-lasting illumination.
- 5) Precise Japanese quartz movement is highly shock resistant and accurate to within seconds a day.
- 6) Forged caseback with square ring seal for perfect water resistance - even after a battery change.
